

NUXATED IRON Is Used By OVER 3000 000 PEOPLE ANNUALLY To Help Build Up Their Health Strength And Endurance

Look around at the men and women you meet in a single day. One glance is enough to tell the ones with plenty of rich, red blood, strength and physical energy to back up their mental power and make them a success in whatever they undertake.

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, says that to help make strong, keen, red-blooded Americans there is nothing so valuable as organic iron—Nuxated Iron. It often increases the strength and endurance of weak

nervous, rundown people in two weeks' time. It is conservatively estimated that Nuxated Iron is now being used by over three million people annually, and it has been used and endorsed by such men as Hon. Leslie M. Shaw, former Secretary of the Treasury and ex-Governor of Iowa; U. S. Commissioner of Immigration Hon. Anthony Caminetti, also United States Judge G. W. Atkinson, of the Court of Claims of Washington, and others. Nuxated Iron is dispensed by all good druggists everywhere.

The distinctive
flavor of

Coca-Cola

The flavor of Coca-Cola is a composite of natural fruits so delicately blended that the palate is unable to distinguish any one of the component parts—the result is a distinctive flavor.

The art of compounding flavors has become a science which requires a lifetime to master. That is why it is so difficult to imitate the distinctive flavor of Coca-Cola.

The slightest deviation from the delicate balance of flavors reveals the imitation. When you ask for Coca-Cola demand the genuine by full name—nicknames encourage substitution.
